Professional Accomplishments (summary)

Please summarize your accomplishments by entering numbers in the table below. These categories are roughly in rank-order of importance (that is, publications and grants “count” more than membership in a professional organization, and external grants are more prestigious than internal grants); however, the faculty also recognize that graduate students should be concentrating on different kinds of accomplishments at different times in their graduate program. Course performance and grades will be viewed more strongly during the 1st and 2nd years than advanced students.

When listing accomplishments, enter the *number* of accomplishments for each activity for the calendar year (for example, if you submitted two different manuscripts or grant applications, enter 2 in submitted, if you have one manuscript published or grant awarded, enter 1 in published or awarded.)

1st year Students: list only accomplishments starting from the date of the departmental graduate student orientation to December 31st.

2nd + Year Students: list accomplishments for the full calendar year reporting for.

- **Post-fieldwork Students:** also submit a current CV with your application.

Professional Accomplishments (detailed)

In the following sections, provide details for the accomplishments summarized in the table above. If you are submitting this for a graduate assistantship, you must attach supporting documentation for each accomplishment (e.g., photocopies of programs, brown bag flyers, written papers; letters of award; thank-you letters for outreach), and give dates for all entries.

- For all entries use the insert row or copy function to add rows as needed.
- Delete any sections that do not apply to save paper and space.
